

Description:

Flat Coping offers a complete and attractive finish to any parapet wall. The system rests flat on top of the parapet. A continuous cleat secures the front, and the back is secured by a screw.

- Fabricated 10 foot lengths; widths are customized to specification.
- 6" concealed splice plate provides coverage for expansion and contraction.
- Continuous cleat is fabricated from 22 or 24 gauge galvanized or .050 aluminum.
- Riveted inside and outside miters and end caps are available.

Energy Efficiency:

LEED® and ENERGY STAR® compliant; Recyclable.

Installation:

1. A wood nailer attached to the top of the parapet wall is required.
2. This nailer should be attached to the wall in accordance with ANSI/SPRI ES-1 3.9.
3. Install in accordance with EXCEPTIONAL® Metals Detail #6050 and Installation #6050.
4. Any deviation from the requirements set forth in detail drawings must be pre-approved, in writing, by the EXCEPTIONAL Metals Technical Department.

Warranty:

EXCEPTIONAL Metals offers a finish and substrate warranty. Contact the membrane manufacturer for any additional warranty that may be offered.

Technical Services:

Product samples, detail sheets, color chips, and color chart are available for your submittal package. For assistance with questions or submittals, contact your local representative or call EXCEPTIONAL Metals.
